18th of January, 2006

Dear Tony,

I am writing on behalf of Production Engineering (PNE) Press Equipment Group of Toyota Motor Corporation Australia Ltd.

This is a letter to express our appreciation for Rylea Engineering Services' dedication and commitment to the Press Plant Christmas 2005 Shutdown projects – *A0 Die Cushion Upgrade* and *5A Staircase and Ladders installation*.

The individual efforts of every Rylea employee impressed us beyond expectation. Their skill, hard work and unflinching teamwork has been reflected in the overall success of the two projects. Their special commitment to the project was never more apparent than during the 2x12 hour shifts run on the 7,8th January to recover from the oil seal issue on the A0 Die Cushion upgrade – which was completed 3 shifts in advance because of the determination and efficiency of your employees.

We have received commendations from Press Plant working groups: Production, General Maintenance and Die Maintenance on Rylea's excellent work and visible respect for the plant's daily operations. Technical Supervision from Komatsu described Rylea employees as "*personally committed and outstanding*". I am certain that the reputation you have built through this Shutdown together with your glowing history will assure your longevity within the Press Plant and PNE.

I would like to thank and congratulate the following Rylea personnel for their contribution:

Day Shift

Bob Adams	Claude Olave	Chico Olave
Frank Psaila	Geoff Allen	Tony Sanches
Marco Echeverria	Adrian Schwartz	Steve Fagan
Arif Allouche	Brian Thompson	Rocky Spiteri
Gary Hovey	Felix Palma	Allan Reeves
Tony Hazelager	Luis Alvarez	Atil Benek
Erwin Alegria	Cane Olave	

Night Shift

Anton Morley	Toli Roszak	Mick Cooney
Ashley McInnerny	Shawn Donnelly	Rob Scrap
Fabian Allendes	Daniel Roszak	John Pozzuto

We thank you for your support on this occasion and hope for our continued association in the future.

Best regards,

Hiromi Kami
